

World Geography

Instructor: Linda Williams

Class Code : Geog350

Tuition : \$20/semester

Length of Class (1st sem/ 2nd sem/both) both

Materials Fee : \$25 (fall only)

Description:

If your student doesn't know his North from his South or thinks that Africa is a country, then this course is for them. Even if your student is a geography enthusiast and can name all the countries of Asia from largest to smallest, there is something for him in this class. We will begin by learning the basics of map reading and the geologic factors that shape all seven continents. They will learn how climate, geographical features and population, help to mold cultures and countries. A bit of history will also come into play in order to understand the current political boundaries of some counties. Each week, the students will fill in blank continent maps and answer work sheet questions, both of which will be checked off and graded. There is a comprehensive test at the end of each continent. Current events will also be assigned for each continent. There will be internet assignments as Google Earth gives us a birds eye view of God's amazing world. A whole lot of fun is had in this class as we travel the world from the comfort of our chairs.

Enrollment:

5

Max: 30

Pre-Requisites: 6th - 10th grade; spirit of adventure

Required Text:

DK Geography of the World (2006) and Rand McNally Answer Atlas (2006 or later). I will purchase the outline maps.
