## Description:

This course is geared toward students who are beginning to explore the creative use of words, as well as those who are not quite ready for IEW. Unlike the more regimented IEW approach, LogoMania is designed to stir up a delight of words within the student. Through various activities, games and exercises, the student will gain a greater storehouse of vocabulary, be introduced to a number of literary tools, begin to write creatively, as well as have his/her understanding of basic grammar reinforced. What the Bible says about our use of words will also be incorporated, so that the student will learn not only good written and verbal communication, but also Godly communication.
