Description:

This upcoming year in IEW A, we will be using Geography-Based Writing Lessons from the Institute for Excellence in Writing. This book will cover the basic IEW units, including Key Word Outlines, Short Story Outlines, Writing from Pictures, and Writing from Fused Outlines. As this book is a bit more challenging, the class will be open to students in grades 5-7. If you feel your 4th grader has had enough writing experience to be ready for this class, you can see me. We will also cover a good amount of grammar, punctuation, and proofreading skills during our class. I also intend to do a unit or two of poetry, and will give the students several opportunities to read their work aloud in class.

Enrollment:
