### Description

This class will function as a book discussion group to encourage students to enjoy reading and have a thoughtful approach to what is read. We will read a variety of genres, which may include biography, fantasy, adventure, realistic fiction, historical fiction, humor, nonfiction, mystery, folktales, and poetry. We will learn about the genres, story elements, and what makes good literature. Our discussions will also include interactive activities to promote comprehension. The main homework will be doing the reading assignments and being prepared to review them in class. Occasionally, there will be an assignment, mostly creative in nature.
