

2016-2017 CHEF Co-op

Middle School Life Science

Instructor: Marcia Brauning

Class Code : SCI300

Co-teacher?

Tuition : \$50 per semester

Length of Class (1st sem/ 2nd sem/both)

both

Materials Fee : \$30 per semester

Description

Life science students will be introduced to many aspects of basic biology and ecology. This HANDS-ON course will expose students to the diversity of God's creation. We will begin with the most fundamental unit of life, the cell, and study our way through the plant and animal kingdoms. Students will engage in a series of dissections throughout the year. It is my hope that through scientific study, students will grow in their wonder and awe of our Creator God and his magnificent creations. In the late summer and early fall, students will work on collecting, identifying, and labeling an insect collection which will be submitted for evaluation. There will be weekly assignments and regular reports.

Grading Policy

Standard Policy

X

Specific Policy

Parents need to decide at the beginning of the year if they want grades maintained for their student or just accountability. If you choose the latter, tests on the subject material will be available, but not required.

Enrollment:

8

Max: 20

Pre-Requisites: 6-8th grade

Required Text:

Bob Jones Life Science 4th Edition

Additional Materials:

3-ring notebook, paper, colored pencils, box and Styrofoam for insect collection (cardboard is acceptable)
