

2017-2018 CHEF Co-op

Geography of the USA

Instructor: LINDA WILLIAMS

Class Code : Geog 250

Co-teacher?

Tuition : \$10/semester

Length of Class (1st sem/ 2nd sem/both)

both

Materials Fee : none

Description:

"This course is a time line overview of the building of our nation, state by state. It is written from the unique perspective of the statehood of individual states and includes a brief study on every one of the fifty states. In the course of studying events of particular interest to each state, the student will see, from a Christian perspective, how these events affected the state and our nation as a whole" (50 States Under God). This course is not ment to be a history class, but rather enhance the history classes offered here at the co-op. Weekly worksheets will be assignd for each state with a test at the end of each section. In class mapping work will be done to reinforce what is being learned. By the end of the course, each student will be able to identify each state, its two letter abbreviation, state nickname and its capitol city in the order of statehood. All sorts of interesting facts will be learned along the way.

Enrollment:

4

Max:

15
