### Description:

This course for 3rd and 4th graders will explore God's creation through the study of human anatomy and physiology. Students will learn about the systems of the human body, as well as health, nutrition, growth, and development. Students will participate in many hands-on labs, crafts, and experiments. They will learn vocabulary and have light homework.

We will be using Exploring Creation with Human Anatomy and Physiology (Young Explorer's series) by Apologia. Purchase of the text is optional and not required for the course. Parents who wish to look at any topic more in depth may choose to purchase the text.
